

EXHIBIT 4.35. Fast-Growing Jobs in California

- 1.** Taking care of people who are sick will be a fast growing job.
- 2.** You can get electricity from the sun. Putting panels on roofs to get power from the sun will be a fast-growing job.
- 3.** Nurse practitioners are another fast-growing job. Nurse practitioners are between a nurse and a doctor. They can do most of the things a doctor can do.
- 4.** Construction work is another area where they are looking for many workers. Roofers, electricians, and people who can do dry wall are some of the construction jobs that will need workers in California.
