### JOBS

There are many fast-growing jobs in California. Taking care of \_\_\_\_\_ will be one job. That could mean taking care of people in their homes or apartments, or in hospitals.

Putting panels on \_\_\_\_\_ to get electricity is another job. The panels are called solar panels.

These panels are like mirrors that "drink" the sun's rays and turn them into electricity.

\_\_\_\_\_ practitioners are another job that will need many new workers.

Mr. Ferlazzo's wife is a nurse practitioner. Construction is another area that will need workers. Roofers, \_\_\_\_\_, and people who can do dry wall will be needed. Dry wall is put on walls and then it's painted.

Instruction: Pick one of the jobs listed in the paragraph and say why you are interested or are not interested in doing it:
